

MOC-Floyd Valley is looking for an energetic, inspiring assistant robotics coach. The robotics regular season goes from September to January, followed by tournaments through early March (depending on advancement)

Candidates should:

- Be available to attend and transport students to Saturday robotics meets: 5 regular season meets, 3 tournament, and possibly state weekend
- Help lead practice/work time with students 1-2 nights/week
- Work with students to engineer, design, and problem solve through development and construction of robots
- Model and facilitate development of healthy and productive team environment
