SCHOOL HEALTH NEWS: *Ashley Van Voorst, RN - SCHOOL NURSE*

May is National Allergy and Asthma Awareness Month

Asthma/Allergy Action Plans: It's now peak season for allergy and asthma sufferers, and a perfect time to recognize the causes of asthma and allergies to best prevent and treat attacks. Make sure the school nurse, your child's teachers, and coaches are aware of your child's asthma so they can provide the necessary help. A Seasonal Allergy and Asthma Action Plan is important to review and update with your health care provider, and a copy should be on file at school, as well as a rescue inhaler. Learn what your child's triggers are – pollen, grass, molds, temperature changes, exercise, smoke, perfume, pesticides? Please let ME know. Children deserve allergy and asthma friendly homes and schools. . For more helpful information check out - <https://www.foodallergy.org/resources/parents-for-food-allergies> and <http://www.lung.org> for more information about dealing with asthma at school.

Spring Cleaning: In addition to your regular spring cleaning chores, consider adding some that will make your home a little safer for your kids, such as cleaning out your medicine cabinet, checking product recalls, and looking for broken toys, etc.

Medications at School: Please remember to pick up all student medications from the nurse's office, as they will be discarded on the last day of school. This includes: epi-pens, inhalers, over the counter medications, and prescription medications.

Sun Safety: Remember, the sun's rays are strongest between the hours of 10:00 a.m. and 4:00 p.m. Use SPF 15 or higher, even on cloudy days. It is important to get a healthy dose of sunshine each day.

A general reminder about head lice: This can happen to anyone, it's not uncommon. Most head lice are transmitted from head to head contact. Head lice are a nuisance, yes, but do not carry disease or signify uncleanliness. Check your children regularly and if head lice are found, consult a health care provider regarding treatment options. Follow package directions and comb out lice and nits thoroughly for 14 days. While this is a time consuming task, it is also very effective at preventing repeat cycles. Clean all items that may have been in contact with your children's head (combs, brushes, linens, stuffed animals). Let your children's close friends and parents know, so they can check regularly, as well. Report all cases to the school nurse, and with your permission, I will re-check your child when they return to school. I also have informative handouts on how to get rid of head lice!

****New Immunization Requirements!!!** - Check with your health care provider to make sure you are properly immunized, especially children entering Kindergarten, 7th grade, and 12th grade.
